Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner contacted Ms. Yellin to discuss the scope of claim 28 and allowability of all other pending claims. The examiner stated that the novel feature of the allowable claims is the combination of capillary electrophoresis and collision cleavage. Claim 28 is not limited to this novel feature and therefore is not free of the prior art. Ms. Yellin contacted Applicant and agreed to cancel Claim 28 allowing the remaining claims to issue. .
